EDUCATION

Hunter College   New York, NY
Bachelor of Arts in Computer Science   *Expected May 2020*
- **Relevant Courses:** Software Analysis and Design III, Computer Architecture II, Discrete Structures

SKILLS

- Technical– C++, JavaScript, React JS, HTML, CSS
- Other – English, Chinese

PROJECTS

Central Park Conservancy JPMC Code for Good   *October 2018*
- Developed a web application with a team of 5 others to help Central Park Conservancy measure patterns and volume of use by visitors frequenting the park and their demographics
- Designed the back-end of a survey using JavaScript and collected user data and stored them in a database, using Bootstrap for a more mobile-friendly application
  - *Awarded First Place, Code for Good 2018*

Lyrics   *September 2018*
- Designed a program in JavaScript to break up queried songs by words and store the song titles, authors, and words using firebase and firestore, to be later retrieved for display by frequency in a bubble graph
  - *Awarded Best Use of Google Cloud Platform*, SBUHacks 2018

Restaurant Search   *May 2018*
- Designed a program to parse through a CSV file of restaurants and distances and applied the Haversine formula to calculate the distance between the user location and a restaurant
- Used C++ and a variation of selection sort to print out restaurant suggestions according to desired cuisine and distance

Word Scrabble   *March 2018*
- Programmed a word scrabbling game using C++ that scrabbles words for users to guess, displays and updates scores, and saves and loads game states

WORK EXPERIENCE

Boba Guys   New York, NY
Shift Lead   *January 2018 – Present*
- Distribute and oversee the workflow of team members to improve efficiency
- Maintain store through regular restocking of supplies and balancing of funds
